

INDIAN IMMUNOLOGICALS LIMITED

Integrated Management System Policy

We produce and deliver safe and efficacious healthcare products using environmentally friendly processes and by giving due importance to the health & safety of employees and the society.

We achieve this through continual improvement of the integrated management system, manufacturing processes, industrial safety measures and competencies of the personnel working for us.

We are committed to prevent pollution of the environment and to prevent injury and ill health of all interested parties by eliminating hazards and reducing occupational health and safety risks with consultation and participation of employees. We comply with all applicable legal and other requirements.

We are committed to enhance customer satisfaction and experience of customers with our products and services by addressing risks and opportunities.
